DIESEL SCRUBBER CONDITIONER

DSC

-  **Biodegradable**
-  **Phosphate Free**
-  **Minimal foam generation, especially under dynamic conditions**
-  **Pleasant citrus fragrance**
-  **Helps ensure correct operation as a flame trap**
-  **Unaffected by hard water**

Polo DSC has been specifically developed as a maintenance aid for underground diesel equipment.

A sophisticated detergency package, comprised of organic surfactants, assists in the elimination of carbon build-up in exhaust conditioning (scrubber) tanks.

Polo DSC assists in the removal of combustion by-products from the internal surfaces of the scrubber and enables suspension of particulates, resulting in improved operator environment.

Directions for use:

One part *Polo DSC* to 100 parts water in the header tank or scrubber tank.
