Issue Date: January 2010

## MATERIAL SAFETY DATA SHEET

Not Classified as Hazardous according to criteria of NOHSC

### COMPANY DETAILS

**Company Name** Polo Citrus Australia Pty Ltd (ABN 18 064 601 332)  
**Address** PO Box 576 Melton  
Vic 3337 Australia  
**Emergency Tel.** 1300 369 422  
**Tel/Fax** Tel: 1300 369 422  
**Other Information** Visit our website: [www.polocitrus.com.au](http://www.polocitrus.com.au)

### IDENTIFICATION

**Product Code** 3024  
**Product Name** Polo Gold  
**Shipping Name** None Allocated  
**UN Number** None Allocated  
**DG Class** None Allocated  
**Packing Group** None Allocated  
**Hazchem Code** None Allocated  
**Poisons Schedule** Not Scheduled  
**Product Use** Supplied as a citrus-based heavy duty cleaner and degreaser for use in suitable applications only.

### Physical Data

**Melting Point** Less than 0 °C  
**Boiling Point** Approximately 100 °C  
**Vapour Pressure** 2 kPa typical @ 20 °C  
**Flash Point** Product does not have a flash point due to water content  
**Flamm. Limit LEL** Not applicable  
**Flamm. Limit UEL** Not applicable  
**Explosion Data** Not considered an explosion risk under normal conditions of use  
**Solubility in Water** Soluble  
**Density** Approximately 1.0 kg/L @ 15 °C

### Other Properties

**Corrosiveness** Not corrosive  
**Oxidising Properties** Not classified as an oxidiser  
**Autoignition Temp.** Not applicable  
**Evaporation Rate** Less than 1 (n-butyl acetate = 1)  
**Vapour Density** Greater than air  
**pH Value** Approximately 10.5 @ 20 °C  
**Odour** Citrus  
**Viscosity** Approximately 10 mm<sup>2</sup>/s @ 40 °C (kinematic)  
**Colour** Clear yellow/orange  
**Form** Liquid  
**Stability** Stable under normal conditions of use

**Haz. Polymerization** Will not occur  
**Materials to Avoid** Strong oxidising agents  
**Other Information** These physical data and other properties do not constitute a specification

**Ingredients**

<b>Ingredients</b>	<b>Name</b>	<b>CAS</b>	<b>Proportion</b>
	Blend of soaps and detergents		0-30 %
	Orange oil	5989-27-5	0-10 %
	Ingredients determined not to be hazardous	Mixture	To 100%

**HEALTH HAZARD INFORMATION**

**Health Effects**

**Acute - Swallowed** May cause mild gastric irritation if swallowed.  
**Acute - Eye** May cause watering of eyes.  
**Acute - Skin** Will have a degreasing action on the skin. Repeated or prolonged skin contact may lead to dermatitic effects.  
**Acute - Inhaled** Inhalation of mists or aerosols may produce respiratory irritation.  
**Chronic** Prolonged or repeated skin contact may cause dermatitis due to defatting effect.

**First Aid**

**Swallowed** Give water to drink. DO NOT induce vomiting. For advice, contact a Poisons Information Centre (Phone Australia 131 126; New Zealand 03 4747 000) or a doctor.  
**Eye** Immediately irrigate with copious quantity of water for at least 15 minutes. Eyelids to be held open. Seek medical advice if effects persist.  
**Skin** Wash with plenty of soap and water. If irritation occurs seek medical advice. Remove contaminated clothing and wash before re-use.  
**Inhaled** Remove victim from exposure - avoid becoming a casualty. Seek medical advice if effects persist.  
**First Aid Facilities** Normal washroom facilities are generally suitable. Ensure an eyewash station and safety shower are available and ready for use.  
**Other Information** Keep water and mild soap near work site.

**Advice to Doctor**

**Advice to Doctor** Treat symptomatically. Aspiration is main danger. Intubation is recommended prior to any emesis due to foaming properties.

**Other Health Hazard Information**

**Irritancy of Product** Not classified as an irritant.  
**Sensitization of Product** Not known to be a sensitiser.  
**Teratogenicity** No teratogenic effects known.  
**Reproductive Toxicity** Reproductive toxicity not expected.  
**Mutagenicity** Mutagenic effects not known.  
**Carcinogenicity** Product is not a known carcinogen.

**PRECAUTIONS FOR USE**

**Exposure Limits** No exposure standard has been established for this product.  
**Other Exposure Info.** Exposure Standard means the average concentration of a particular substance in the worker's breathing zone, exposure to which, according to current knowledge, should not cause adverse health effects nor cause undue discomfort to nearly all workers.  
It can be of three forms; time-weighted average (TWA), peak limitation, or short term exposure limit (STEL). Occupational exposure

limits: When an exposure standard has not been established by the National Occupational Health & Safety Commission for a material, a blanket recommendation of 5 mg/m<sup>3</sup> for respirable vapours, mists and dusts should be used.

#### **Eng. Controls**

Maintain concentration below recommended exposure limit. Special ventilation is not normally required due to the low volatility of the product at normal temperatures. However, in the operation of certain equipment or at elevated temperatures, mists or vapour may be generated and exhaust ventilation should be provided to maintain airborne concentration levels below the exposure standard or where no exposure standard is allocated, as low as is reasonably practicable.

#### **Personal Protection**

##### **Respirator Type**

(AS 1716)

Respirator not normally required.

Airborne concentrations should be kept to lowest levels possible. If vapour, mist or dust is generated and the occupational exposure limit of the product is exceeded, use appropriate AS/NZS 1715/1716 approved half-face filter respirator suitable for organic vapours or air supplied respirator after determining the airborne concentration of the contaminant. Air supplied respirators should always be worn when airborne concentration of the contaminant or oxygen content of the air is unknown.

##### **Eye Protection**

Safety glasses, goggles or faceshield as appropriate.

##### **Glove Type**

PVC, neoprene or nitrile rubber gloves.

##### **Clothing**

Overalls or similar protective apparel.

##### **Footwear**

Enclosed footwear.

PVC or rubber boots.

##### **Work/Hygienic**

Always wash hands before smoking, eating, drinking or using the toilet.

##### **Practices**

If contamination occurs, change clothing. Discard internally contaminated gloves and footwear. Launder contaminated clothing before reuse.

#### **Flammability**

##### **Fire Hazards**

Non combustible. Non flammable. Product residue, following evaporation of liquid content will burn in the presence of an ignition source.

#### **SAFE HANDLING INFORMATION**

##### **Storage and Transport**

##### **Storage Precautions**

Keep containers closed at all times. Store in cool place and out of direct sunlight. Store away from oxidizing agents.

Check containers regularly for leaks.

##### **Transport**

Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

##### **Handling**

Ensure the appropriate personal protective equipment is used when handling this material. When handling product in drums, safety footwear should be worn and proper handling equipment should be used. Prevent spillages.

##### **Proper Shipping**

None Allocated

##### **Name**

#### **Spills and Disposal**

##### **Spills & Disposal**

Slippery when spilt. Avoid accidents, clean up immediately. Use absorbent (soil or sand, sawdust, inert material, vermiculite). Collect

and seal in properly labelled drums for disposal. Observe local regulations. Wash away residues with water.

**Fire/Explosion Hazard**

<b>Fire/Explos. Hazard</b>	Low hazard
<b>Hazardous Decomposition or Byproducts</b>	Decomposition products may include: a complex mixture of airborne solid and liquid particulates and gases, including carbon monoxide, carbon dioxide, soot, oxides of sulfur, and unidentified organic and inorganic compounds.
<b>Fire Fighting Procedures</b>	Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of decomposition.
<b>Extinguishing Media</b>	Use extinguishing media suitable for surrounding environment as this product is unlikely to burn.
<b>Hazardous Reaction</b>	May react with strong oxidising agents.
<b>Hazchem Code</b>	None Allocated

**OTHER INFORMATION**

<b>Toxicology</b>	Estimated Oral LD50 (rat): greater than 2000 mg/kg.
<b>Short Summary of Assessment of Environmental Impact</b>	The product is based on natural substances which are classified as 'readily biodegradable' according to AS4351/ISO 7827.
<b>Environ. Protection Pkg. &amp; Labelling</b>	Do not allow material to enter drains or waterways. Label with statement: Application to skin may increase sensitivity to sunlight.

This information was prepared in good faith from the best information available at the time of issue. It is based on the present level of research and to this extent we believe it is accurate. However, no guarantee of accuracy is made or implied and since conditions of use are beyond our control, all information relevant to usage is offered without warranty.

The manufacturer will not be held responsible for any unauthorised use of this information or for any modified or altered versions.

If you are an employer it is your duty to tell your employees, and any others that may be affected, of any hazards described in this sheet and of any precautions that should be taken.

Material Safety Data Sheets are updated frequently. Please ensure you have a current copy.
