Issue Date: January 2010

MATERIAL SAFETY DATA SHEET

Not Classified as Hazardous according to criteria of NOHSC

COMPANY DETAILS

Company Name Polo Citrus Australia Pty Ltd (ABN 18 064 601 332)
Address PO Box 576 Melton
Vic 3337 Australia
Emergency Tel. 1300 369 422
Tel/Fax Tel: 1300 369 422
Other Information Visit our website: www.polocitrus.com.au

IDENTIFICATION

Product Code 3048
Product Name Polo Lemon Disinfectant
Shipping Name None Allocated
UN Number None Allocated
DG Class None Allocated
Packing Group None Allocated
Hazchem Code None Allocated
Poisons Schedule Not Scheduled
Product Use Supplied as a general purpose disinfectant for use in suitable applications only.

Physical Data

Melting Point Less than 0 °C
Boiling Point Approximately 100 °C
Vapour Pressure 2 kPa typical @ 20 °C
Flash Point Product does not have a flash point
Flamm. Limit LEL Not applicable
Flamm. Limit UEL Not applicable
Explosion Data Not considered an explosion risk under normal conditions of use
Solubility in Water Soluble
Density Approximately 1.0 kg/L @ 15 °C

Other Properties

Corrosiveness Not corrosive
Oxidising Properties Not classified as an oxidiser
Autoignition Temp. Not applicable
Evaporation Rate Less than 1 (n-butyl acetate = 1)
Vapour Density Greater than air
pH Value Approximately 7 @ 20 °C
Odour Lemon
Viscosity Approximately 5 mm²/s @ 40 °C (kinematic)
Colour Clear yellow
Form Liquid
Stability Stable under normal conditions of use
Haz. Polymerization Will not occur
Materials to Avoid Strong oxidising agents and acids

Other Information These physical data and other properties do not constitute a specification

Ingredients

| <u>Ingredients</u> | <u>Name</u> | <u>CAS</u> | <u>Proportion</u> |
|---------------------------|--|-------------------|--------------------------|
| | quaternary ammonium compound | | N/A 0-10 % |
| | Phenol derivatives | Mixture | 0-10 % |
| | Alicyclic hydrocarbons | N/A | 0-10 % |
| | Aliphatic alcohols | Mixture | 0-10 % |
| | Ingredients determined not to be hazardous | Mixture | To 100% |

HEALTH HAZARD INFORMATION

Health Effects

Acute - Swallowed May cause mild gastric irritation if swallowed.
Acute - Eye May cause watering of eyes.
Acute - Skin Not expected to be irritating to the skin although will have a degreasing action on the skin.
Acute - Inhaled Inhalation of mists or aerosols may produce respiratory irritation.
Chronic Generally non-irritant on incidental contact. Excessive or prolonged contact may give rise to irritant or dermatitic effects.

First Aid

Swallowed Give water to drink. DO NOT induce vomiting. Seek medical advice.
Eye Immediately irrigate with copious quantity of water for at least 15 minutes.
Skin Eyelids to be held open. Seek medical attention.
Wash with plenty of soap and water. If irritation occurs seek medical advice.
Inhaled Remove contaminated clothing and wash before re-use.
Remove victim from exposure - avoid becoming a casualty. Seek medical advice if effects persist.
First Aid Facilities Normal washroom facilities are generally suitable. Ensure an eyewash station and safety shower are available and ready for use.
Other Information Keep water and mild soap near work site.

Advice to Doctor

Advice to Doctor Treat symptomatically.

Other Health Hazard Information

Irritancy of Product Not classified as an irritant.
Sensitization of Product Not known to be a sensitiser.
Teratogenicity No teratogenic effects known.
Reproductive Toxicity Reproductive toxicity not expected.
Mutagenicity Mutagenic effects not known.
Carcinogenicity Product is not a known carcinogen.

PRECAUTIONS FOR USE

Exposure Limits No exposure standard has been established for this product.
Other Exposure Info. Exposure Standard means the average concentration of a particular substance in the worker's breathing zone, exposure to which, according to current knowledge, should not cause adverse health effects nor cause undue discomfort to nearly all workers.
It can be of three forms; time-weighted average (TWA), peak limitation, or short term exposure limit (STEL). Occupational exposure limits: When an exposure standard has not been established by the National Occupational Health & Safety Commission for a material, a

blanket recommendation of 5 mg/m³ for respirable vapours, mists and dusts should be used.

Eng. Controls

Maintain concentration below recommended exposure limit. Special ventilation is not normally required due to the low volatility of the product at normal temperatures.

However, in the operation of certain equipment or at elevated temperatures, mists or vapour may be generated and exhaust ventilation should be provided to maintain airborne concentration levels below the exposure standard or where no exposure standard is allocated, as low as is reasonably practicable.

Personal Protection

Respirator Type

(AS 1716)

Respirator not normally required.

Airborne concentrations should be kept to lowest levels possible. If vapour, mist or dust is generated and the occupational exposure limit of the product is exceeded, use appropriate AS/NZS 1715/1716 approved half-face filter respirator suitable for organic vapours or air supplied respirator after determining the airborne concentration of the contaminant. Air supplied respirators should always be worn when airborne concentration of the contaminant or oxygen content of the air is unknown.

Eye Protection

Safety glasses, goggles or faceshield as appropriate.

Glove Type

PVC, neoprene or nitrile rubber gloves.

Clothing

Overalls or similar protective apparel.

Footwear

Enclosed footwear.

Work/Hygienic

Always wash hands before smoking, eating, drinking or using the toilet.

Practices

If contamination occurs, change clothing. Discard internally contaminated gloves and footwear. Launder contaminated clothing before reuse.

Flammability

Fire Hazards

Non combustible. Non flammable. Product residue, following evaporation of liquid content will burn in the presence of an ignition source.

SAFE HANDLING INFORMATION

Storage and Transport

Storage Precautions

Keep containers closed at all times. Store in cool place and out of direct sunlight. Store away from oxidizing agents.

Check containers regularly for leaks.

Transport

Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

Handling

Ensure the appropriate personal protective equipment is used when handling this material. When handling product in drums, safety footwear should be worn and proper handling equipment should be used. Prevent spillages.

Proper Shipping

None Allocated

Name

Spills and Disposal

Spills & Disposal

Slippery when spilt. Avoid accidents, clean up immediately. Use absorbent (soil or sand, sawdust, inert material, vermiculite). Collect and seal in properly labeled drums for disposal. Observe local regulations. Wash away residues with water.

Fire/Explosion Hazard

Fire/Explos. Hazard

Low hazard

| | |
|-------------------------------------|--|
| Hazardous | Decomposition products may include: a complex mixture of airborne solid and liquid |
| Decomposition or Bioproducts | particulates and gases, including carbon monoxide, carbon dioxide, soot, oxides of sulfur, and unidentified organic and inorganic compounds. |
| Fire Fighting Procedures | Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of decomposition. |
| Extinguishing Media | Use extinguishing media suitable for surrounding environment as this product is unlikely to burn. |
| Hazardous Reaction | May react with strong oxidising agents and acids. |
| Hazchem Code | None Allocated |

OTHER INFORMATION

| | |
|--|---|
| Toxicology | Estimated Oral LD50 (rat): greater than 2000 mg/kg. |
| Short Summary of Assessment of Environmental Impact | The product is based on substances that are classified as 'readily biodegradable' according to AS4351/ISO 7827. |
| Environ. Protection | Do not allow material to enter drains or waterways. Disinfectants are toxic to aquatic organisms. |
| Pkg. & Labelling | No special packaging or labelling requirements. |
