Issue Date: January 2010

MATERIAL SAFETY DATA SHEET

Classified as Hazardous according to criteria of NOHSC

COMPANY DETAILS

Company Name Polo Citrus Australia Pty Ltd (ABN 18 064 601 332)
Address PO Box 576 Melton
Vic 3337 Australia
Emergency Tel. 1300 369 422
Tel/Fax Tel: 1300 369 422
Other Information Visit our website: www.polocitrus.com.au

IDENTIFICATION

Product Code 3072
Product Name Orange Pump Soap With Beads
Shipping Name None Allocated
UN Number None Allocated
DG Class None Allocated
Packing Group None Allocated
Hazchem Code None Allocated
Poisons Schedule Not Scheduled
Product Use Polo Orange Pump Soap With Beads an effective natural hand cleaner combining citrus oils with lanolin and coconut oil to provide a rich creamy lather leaving hands feeling clean, smooth and comfortable with a lingering orange fragrance. Blended into the product is fine grade polyethylene beads, which act as an abrasive to loosen and remove tough soiling grease and oils from the hands, without irritating the skin.
Other Information Refer to the Product Information Sheet for further details.

Physical Data

Melting Point Less than 0 °C
Boiling Point Approximately 100 °C
Vapour Pressure 2 kPa typical @ 20 °C
Flash Point Product does not have a flash point
Flamm. Limit LEL Not applicable
Flamm. Limit UEL Not applicable
Explosion Data Not considered an explosion risk under normal conditions of use
Solubility in Water Soluble
Density Approximately 1.0 kg/L @ 15 °C

Other Properties

Corrosiveness Not corrosive
Oxidising Properties Not classified as an oxidiser
Autoignition Temp. Not applicable
Evaporation Rate Less than 1 (n-butyl acetate = 1)
Vapour Density Greater than air
pH Value Approximately 8.5 - 9 @ 20 °C

Issue Date: January 2010, Page 1 of 5, Issued by Polo Citrus Australia

Odour	Citrus
Colour	Opaque pale yellow
Form	Liquid
Stability	Stable under normal conditions of use
Haz. Polymerization	Will not occur
Materials to Avoid	Strong oxidising agents
Other Information	These physical data and other properties do not constitute a specification

Ingredients

<u>Ingredients</u>	<u>Name</u>	<u>CAS</u>	<u>Proportion</u>
	Ingredients determined not to be hazardous	Mixture	100 %
	Organic sulfur compounds	Mixture	0-30 %
	Polyethylene beads	N/A	0-10 %
	Orange oil	5989-27-50	10 %
	Phenol derivatives	Mixture	0-10 %
	Amide derivative	Mixture	0-10 %
	Borate derivative	Mixture	0-10 %

HEALTH HAZARD INFORMATION

Health Effects

Acute - Swallowed	May cause mild gastric irritation if swallowed.
Acute - Eye	A mild eye irritant.
Acute - Skin	Will have a degreasing action on the skin. Repeated or prolonged skin contact may lead to dermatitic effects.
Acute – Inhaled	Product is not expected to be irritating to the nose, throat or respiratory tract.
Chronic	Prolonged or repeated skin contact may cause dermatitis due to defatting effect. May cause sensitisation by skin contact.

First Aid

Swallowed	Give water to drink. DO NOT induce vomiting. Seek medical advice.
Eye	Immediately irrigate with copious quantity of water for at least 15 minutes. Eyelids to be held open. Seek medical advice if effects persist.
Skin	Rinse with plenty of water. Remove contaminated clothing and wash before re-use.
Inhaled	Remove victim from exposure - avoid becoming a casualty. Seek medical advice if effects persist.
First Aid Facilities	Normal washroom facilities are generally suitable. Ensure an eyewash station and safety shower are available and ready for use.

Advice to Doctor

Advice to Doctor	Treat symptomatically. Aspiration is main danger. Intubation is recommended prior to any emesis due to foaming properties.
-------------------------	--

Other Health Hazard Information

Teratogenicity	No teratogenic effects known.
Reproductive Toxicity	Reproductive toxicity not expected.
Mutagenicity	Mutagenic effects not known.
Carcinogenicity	Product is not a known carcinogen.

PRECAUTIONS FOR USE

Exposure Limits	No exposure standard has been established for this product.
------------------------	---

Other Exposure Info.	Exposure Standard means the average concentration of a particular substance in the worker's breathing zone, exposure to which, according to current knowledge, should not cause adverse health effects nor cause undue discomfort to nearly all workers. It can be of three forms; time-weighted average (TWA), peak limitation, or short term exposure limit (STEL). Occupational exposure limits: When an exposure standard has not been established by the National Occupational Health & Safety Commission for a material, a blanket recommendation of 5 mg/m ³ for respirable vapours, mists and dusts should be used.
Eng. Controls	Maintain concentration below recommended exposure limit. Special ventilation is not normally required due to the low volatility of the product at normal temperatures. However, in the operation of certain equipment or at elevated temperatures, mists or vapour may be generated and exhaust ventilation should be provided to maintain airborne concentration levels below the exposure standard or where no exposure standard is allocated, as low as is reasonably practicable.

Personal Protection

Respirator Type (AS 1716)	Respirator not normally required. Airborne concentrations should be kept to lowest levels possible. If vapour, mist or dust is generated and the occupational exposure limit of the product is exceeded, use appropriate AS/NZS 1715/1716 approved half-face filter respirator suitable for organic vapours or air supplied respirator after determining the airborne concentration of the contaminant. Air supplied respirators should always be worn when airborne concentration of the contaminant or oxygen content of the air is unknown.
Eye Protection	Safety glasses, goggles or faceshield as appropriate.
Glove Type	PVC, neoprene or nitrile rubber gloves.
Clothing	Overalls or similar protective apparel.
Footwear	Enclosed footwear. PVC or rubber boots.
Work/Hygienic Practices	Always wash hands before smoking, eating, drinking or using the toilet. If contamination occurs, change clothing. Discard internally contaminated gloves and footwear. Launder contaminated clothing before reuse.

Flammability

Fire Hazards	Non combustible. Non flammable. Product residue, following evaporation of liquid content will burn in the presence of an ignition source.
---------------------	---

SAFE HANDLING INFORMATION

Storage and Transport

Storage Precautions	Keep containers closed at all times. Store in cool place and out of direct sunlight. Store away from oxidizing agents. Check containers regularly for leaks.
Transport	Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.
Handling	Ensure the appropriate personal protective equipment is used when handling this material. When handling product in drums, safety footwear should be worn and proper handling equipment should be used. Prevent spillages.

Proper Shipping Name	None Allocated
Spills and Disposal Spills & Disposal	Slippery when spilt. Avoid accidents, clean up immediately. Use absorbent (soil or sand, sawdust, inert material, vermiculite). Collect and seal in properly labelled drums for disposal. Observe local regulations. Wash away residues with water.
Fire/Explosion Hazard	
Fire/Explos. Hazard	Low hazard
Hazardous Decomposition or Byproducts	Decomposition products may include: a complex mixture of airborne solid and liquid particulates and gases, including carbon monoxide, carbon dioxide, soot, oxides of sulfur, and unidentified organic and inorganic compounds.
Fire Fighting Procedures	Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of decomposition.
Extinguishing Media	Use extinguishing media suitable for surrounding environment as this product is unlikely to burn.
Hazardous Reaction	May react with strong oxidising agents.
Hazchem Code	None Allocated

OTHER INFORMATION

Toxicology	Estimated Oral LD50 (rat): greater than 2000 mg/kg.
Short Summary of Assessment of Environmental Impact	The product is based on substances that are classified as 'readily biodegradable' according to AS4351/ISO 7827.
Environ. Protection	Do not allow material to enter drains or waterways.
Risk Statement	R36 Irritating to eyes.
Safety Statement	S2 Keep out of reach of children. S25 Avoid contact with eyes. S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. S28 After contact with skin, wash immediately with plenty of water.
Pkg. & Labelling	No special labelling requirements for consumer packaging.
Hazard Category	Irritant
